

Trustmarque: CE and CE Plus Certification and Advisory Services

Protecting your business's digital assets is paramount in today's fast-evolving cyber threat landscape. That's why Trustmarque offers specialised services in two areas: Cyber Essentials Advisory Consultancy and Cyber Essentials & Cyber Essentials Plus Certification Assessments.

Our team of experts ensures that not only are your cybersecurity practices robust and effective, but we also prepare you for certification. With Trustmarque, you can rest assured that your business is safeguarded against the latest cyber threats, giving you peace of mind to focus on growing your business.

Cyber Essentials Advisory Consultancy

Key Services

- ✔ **Customised cybersecurity strategy:** development of a cybersecurity strategy tailored to your organisation's needs, aligning with Cyber Essentials and Cyber Essentials Plus standards.
- ✔ **Policy and procedure development:** assistance in creating and implementing comprehensive security policies and procedures.
- ✔ **Employee cybersecurity training:** educational programs to enhance your team's awareness and response to cyber threats.

Benefits:

- ✓ **Strengthened security posture:** equip your organisation with the knowledge and policies to mitigate cyber risks effectively.
- ✓ **Guided path to certification:** navigate the certification landscape with confidence, thanks to expert advice and support.

Cyber Essentials & Cyber Essentials Plus Certification Assessments

Key Services

- ✓ **Certification-focused assessments:** direct assessment services aimed at evaluating your organisation's compliance against Cyber Essentials and Cyber Essentials Plus certifications.
- ✓ **Clear, concise reporting:** detailed reports on assessment findings, focused solely on certification requirements.
- ✓ **Certification process guidance:** Assistance in understanding and navigating the certification process.

Benefits:

- ✓ **Objective evaluation:** gain an unbiased assessment of your cybersecurity measures against Cyber Essentials and Cyber Essentials Plus standards.
- ✓ **Efficient certification path:** focus your efforts on necessary improvements to meet certification criteria efficiently.
- ✓ **Recognised cybersecurity excellence:** achieve certification that validates your commitment to cybersecurity, enhancing stakeholder trust.

How It Works

- ✓ **Engagement and planning:** choose between our Advisory Consultancy for comprehensive cybersecurity support or direct Certification Assessments to validate your readiness.
- ✓ **Execution:** benefit from tailored advisory services or undergo a precise certification assessment, depending on your chosen path.
- ✓ **Reporting and guidance:** Receive detailed insights and actionable recommendations tailored to your service selection, driving you towards your cybersecurity goals.

Why Choose Trustmarque?

- ✓ **Dual expertise:**
unique blend of in-depth consultancy services and targeted certification assessments.
- ✓ **Customised support:**
Whether seeking certification or looking to bolster your cybersecurity framework, we offer solutions tailored to your needs.
- ✓ **Trusted partner:**
A proven track record of guiding businesses successfully through certification and beyond.
