**Emissions reduction targets**

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

Net zero carbon by 2035

Progress against our net zero target can be seen in the graph below:

**Carbon Reduction Projects**

Completed Carbon Reduction Initiatives

**Tonnes CO2e**

- Move to virtual meetings using Microsoft Teams
- Heating ventilation and air conditioning (HVAC) efficiency upgrades
- Energy reduction program – switch off policy, what runs, runs when needed only.
- Improvements made of carbon reporting using actual emissions data
- Reduced business travel emissions by disposing of company cars.
- Where work circumstances allow, employees given options for flexible working model to reduce accommodation requirements
- Provide staff with company electric car scheme providing vehicles through salary sacrifice
- Opened a new London office that provides green initiatives such as 95% renewable energy and zero waste to landfill, reforestation and decarbonisation a key focus

In the future we expect to implement further measures such as:

- Migrate multi tenanted properties we occupy to 100% renewable electricity.
- Improve efficiencies in electricity consumption.
- Ongoing optimisation of building energy ensuring longer term strategies for building heating decarbonisation.
- Engage with supply chain to ensure suppliers set carbon reduction targets and commit to net zero. Monitor top 200 supplier emissions annually
- Reduce commuting emissions by encouraging home working and hybrid working
- Review use of sustainable business initiative targets and setting Science Based Targets
- Review offsetting measures to help us achieve our net zero target
- Updating our travel and expense policy to encourage staff to use trains and reduce our emissions
